

Twin Refill aquaBUBBLER - ABS1413 and ABS1415

This model is available in 2 different unit heights to cater for different age groups

Unit Height: 1330mm Tap Height: 1020mm
Unit Height: 1530mm Tap Height: 1220mm

Key Features

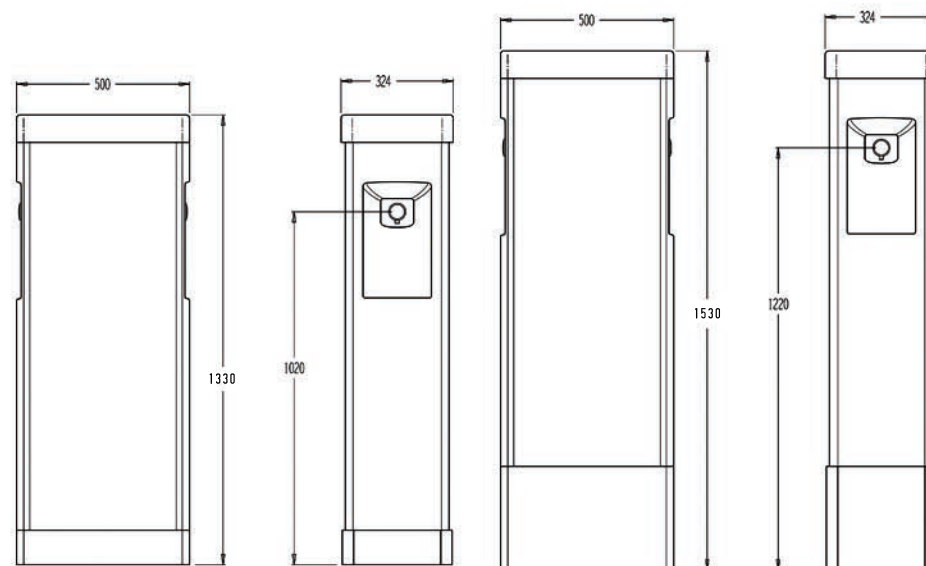

- Two water bottle refill nozzles, one each side of the unit
- The Newton Force required to initiate water flow is 18-19.5N, and 15.5-17N to maintain flow. This is consistent with AS1428.2
- Water flow is easily adjusted via a keyhole in the side of the unit. This means that opening the unit is unnecessary
- aquaBUBBLER nozzles have been tested and found to satisfy the requirements of AS/NZS 4020
- Body and components are made from 100% recyclable materials
- Internal base mounting plate means that no bolts are exposed externally, eliminating chances of injuring feet (stubbing toes etc.) and prohibiting theft of unit
- Vandal-resistant and graffiti-proof
- Graphic panels are easily changed when desired by sliding them out of the channels (one on each face of the unit)
- Components low maintenance and are long-lasting
- aquaBUBBLER taps are designed to last indefinitely, with a life time guarantee
- Generous 40mm push button, very easy to use
- Australian made

Sample Colour range
